

Steps to Field

Some of the most important learning that occurs during the completion of your Social Work program happens outside the classroom. Field education, also called practicum, fieldwork or field experience, is the hands-on training portion of your BSW program. It is a chance for you to test the waters, to make mistakes in a supportive learning environment and find your space within the diverse landscape of social work career options.

STEP

01

Coursework

Successfully complete all core social work courses with a C or better prior to entry into field. Maintain a GPA
